**Vereinheitlichung der Keramik für EPCOS NTC ICLs**

Zur Vereinheitlichung der Prozesse und zur weiteren Verbesserung der Qualität werden die bisher zwei verwendeten Arten von Keramiken bei EPCOS NTC ICLs auf eine Keramikart reduziert. Damit ändern sich die Bestellnummern.

| <b>4. Description of change:</b><br>EPCOS has currently two kinds of ceramics for NTC ICLs. In the future only one kind of ceramic will be used in order to further standardize our processes and quality improvement activities.   |                           |   |                              |
| <b>5. Effect on the product or for the customer (benefit, quality, specification, lead time):</b><br>There will be no impact on form, fit, function, or reliability. With our Quality Management (QM) system and within the scope of our zero-defect strategy we are continually improving the quality of our products and services. There will be improvement for lead time. |                           |   |                              |
| <b>6. Quality assurance measures / risk assessment:</b><br>The plant in Zhuhai, China, is certified according to ISO/TS 16949 and ISO 9001. Production release in conformance with ISO/TS 16949.  |                           |   |                              |
