

PCN 15 August 2019

Product change notification

PCN060819 ZTA_MT/ZTT_MX

Product identification	Ceramic Resonator: 117-ZTT_MT series (Frequency: 6MHz to 13MHz) 117-ZTT_MX series (Frequency: 13.1MHz to 25.0MHz)
Type of change	EOL and will be replaced by ZTTLS series, as below: 117-ZTTLS_MT series (Frequency: 6MHz to 13MHz) 117-ZTTLS_MX series (Frequency: 13.1MHz to 25.0MHz)
Reason for change	With the miniaturization of the whole machine and the popularity of machine operations, we have started to replace ZTT_MT/MX with low-profile ZTTLS_MT/MX gradually since year 2014. By using the automatic machines for the processes of loading the ceramic elements and dip soldering, the product consistency and reliability of ZTTLS series are improved and the height of the product is reduced at the same time. The low-profile ZTTLS_MT/MX have been produced and used by customers for many years with stable quality. In view of this, we decided to replace ZTT_MT/MX by ZTTLS_MT/MX.
Sample Status:	Sample of ZTTLS_MT/MX will be available as per request
Implementation date of change	Last Buy Date : 15.September 2019 Last Shipment Date: 30 November 2019

We hope the above changes will have minimal impact to our customers. Should there are any questions, please contact the associated sales personnel or email us at:
